Subject: Service Agreement Proposal

Dear Chief Krantz,

Fusus is honored that the Bend Police Department is considering our organization to support its community safety initiatives by providing a platform to view public and community video sources for incident situational awareness and investigations.

Fusus will provide a video and data collaboration platform to expedite intelligence gathering and efficiency of response to situations as they unfold throughout the community. Further, the platform is tied to a community-facing website portal for video camera registry, providing a tool for identifying the location of cameras in proximity to incidents, as well as a means for efficient outreach to collect recorded video and image files from camera owners both public and private.

Upon execution of this agreement, the project will initiate and consist of the following:

Thirty-Day No Charge Proof of Concept:

- a. Provide and install five (5) fususCORE™ Pro Appliances
- b. One (1) fususCORE Elite AI™ Appliance
- c. Floorplan Integration for designated locations in fususONE™
- d. Provide access to software and training of users
- e. Integration of the Department's CAD into fususONE™

At the conclusion of the thirty (30) days, and with customer approval (Written Notice to Proceed), full deployment will begin.

This Service Agreement Proposal and related software subscription will become effective upon signing and continue for thirty-six (36) months.

1. Initial Scope of Work: The following fusus Basic Package software and associated hardware will be delivered and installed as part of this agreement.
 - a. fususONE™: Initial setup, access and training of users to include up to 150 data points and 150 public/private video feeds
