Looking at my records, I don't think I received the fully executed version of Exhibit A – just the unsigned in my files w/o language below. Whatever you can give me so I have complete record would be awesome – thank you much!

That would be awesome if you could – my quote version does not include it. Have we paid them already?

I believe it was part of Exhibit A, which was the quote. I can pull it back up if you need it.

Thank you!

Yes, we met with them last week for the kick-off. What document is the bottom in reference to? If I don't have it, I might need it for the grant reporting information. They're not technically held up, just part of the rollout timeline.

Thanks,
Jenn

The contract states payment is due after signing and before equipment delivery.

Contract went into effect on 10/10 and expires on 10/9/25. Is the vendor aware things are held up on your end?

Thank you!

Hi Char,

FYI—No equipment has been received/installed yet. Brian and I are still working through some aspects of the city permitting, camera siting process that includes two private parties in addition to the 4 city-owned properties. One concern I have (without reading through the long MSA) is when the 1-year subscription clock starts.

We don't initiate payment until equipment is received/installed correct? Or does this contract (Flock MSA) override the typical purchasing agreement?

Thanks,

Jenn
